## Edokial chooses Post On Demand to build its Edoclick hybrid mail management solution

Edokial, the third largest Print service bureau on the French market, adopts for Post On Demand from Nirva Systems to build its Saas hybrid mail management solution.

The reasons for choosing Post On Demand are perfectly explained by MM. Kochanski and Pagès of EDOKIAL:

- "Nirva's strategic vision and references in the high volume service bureau market has led Edokial to choose Nirva's solution to develop the EDOKLICK hybrid mail solution. In addition, the flexibility, performance and scalability of the Nirva technology allowed us to build a service offering relevant both to large accounts and SMEs / SMIs. Today it manages hybrid mail but will extend to a range of electronic communication means in the future. "Michael Kochanski - Director of Development EDOKIAL.

- "In addition to the business expertise of Nirva, Post On Demand, which is based on the proven Nirva Application Platform, was a decisive factor in our choice, true guarantee of full integration into our Information System. Nirva is also the only vendor to have a solution proposing a large panel of acquisition or submission services. It is indeed possible to submit documents directly from the Web portal without installing anything on the desktop, which is asked by many financial institutions for instance. "Jean-Marie Pagès - Director of Information Systems EDOKIAL.

«We are delighted to be working again with EDOKIAL - which already uses our Track & Trace real-time traceability solution - and participate in the development of these new offers offering real value to both users and their employers users.» Olivier Lebleu - CEO Nirva Software.

Subsidiary of INFORSUD, Edokial is the third largest print service bureau on the French market. With five production centers, Edokial aims to provide materialized and electronic solutions for document processing and communication management. The services offered

by Edokial include: advice and assistance to project owners, management and optimization of workflow, color and monochrome laser printing, enveloping, archiving of electronic documents ... Edokial benefits from its team of experts to develop tailor solutions leveraging modern and legacy technologies large accounts and SMEs.

## Our vision

Over time, document processes have become extremely complex. To the point that they can now only be managed by IT or document specialists.

**Our objective at Nirva Systems is to restore simplicity in document management.**

Simplicity for document specialists but also for end users. Because simplicity brings agility, reactivity, productivity, control, relevance, quality and cost reduction.

With Nirva Systems' solutions, our clients manage their document processes in the areas of new client acquisition, existing clients management, inbound and outbound document management. They manage their business, marketing, legal documents, be they emitted by employees, business applications, or else. They manage batch, interactive, transactional and hybrid documents.

In summary, all document processes or information exchange within the organisation.

Nirva Systems' clients include Banques Populaires, Cofinoga, SFR, Deutsche Post, Xerox, Williams Lea, etc.
